# MIDNIGHT

## LEGENDS OF SHADOW

Thus far, the tales of Midnight have been the tales of mere mortals. The players have been warriors against the darkness, heroes drawn from the common folk, desperate fighters, spies, messengers, and saviors. Their foes have been likewise: the orcs of the dark host, the legates of the Order of Shadow, the Fell and the Trapped and the Lost.

All that is about to change.

With the new Midnight supplement *Legends of Shadow*, the award-winning Midnight campaign takes the players beyond the battles and the hidden fights and reveals the most powerful beings in the world, the legends of the Last Age: The Night Kings. Using the epic-level rules for the d20 system, this supplement offers not only the stats of the Night Kings but also provides rich background. Delve into their inner sanctums and behold their darkest plans, their secret weapons, and their seething hatreds. Learn what resources they have available and what attitudes they have toward one another. For in the shadow of Izrador himself, hatred and infighting are as natural as breathing.

Yet the world of Aryth does not suffer beneath the might of the Night Kings without defenders. The Witch Queen Aradil is presented here as well, in all her wisdom and power. Learn not only her history and abilities, but those of her most trusted avatars as well. Discover why the Night Kings have not assaulted her directly, and answer the question once and for all...can the *Legends of Shadow* be defeated?

*Legends of Shadow* will include:

- Official stats for the Night Kings, Aradil, and her most powerful avatars.
- Background information, histories, and plans for each of the Night Kings, for Aradil, and for her most powerful avatars.
- Adventure hooks involving each of the Night Kings, whether for a beginning party that might foil the plans of one of their minor minions or for a truly epic conflict in which the PCs try to take down one of the Night Kings themselves.
